The Department caters to the ever- growing technology in the sphere of academic, research and training needs of computing concepts, tools and techniques. The Department of Computer Science is an elite department known for its forward-looking approach to higher education and innovative teaching for producing competent software professionals.

HoD's MESSAGE

The Department of Computer Science and Engineering (CSE) is dedicated to shaping the future by offering an education that is not only innovative but also of the highest standard. Our relentless pursuit of academic excellence is driven by a team of distinguished and passionate faculty members, committed to nurturing young minds and preparing them to excel in a global arena. We provide a dynamic platform where students are empowered to unlock their full potential and realize their career aspirations. I warmly invite you to be a part of this transformative journey as we continue to elevate the Department of CSE to new pinnacles of success and distinction."

Dr.S.Raja Mohamed
– Head of the Department

Vision of the Department

To produce intellectual graduates to excel in the field of Computer Science Engineering and Technologies.

Mission of the Department

Providing excellent and intellectual inputs to the students through qualified faculty members.

Imparting technical knowledge in latest technologies through the industry institute interaction and thereby making the graduates ready for the industrial environment.

Enriching the student's knowledge for active participation in co-curricular and extracurricular activities.

Promoting research-based projects in contexts to social, legal and technical aspects.

Course Offered

The department offers the following courses:

4 year UG Course – B.E. Computer Science & Engineering

2 year PG Course – M.E. Computer Science & Engineering

Ph.D. in Computer Science & Engineering

Under-Graduate Programme (PO,PSO,PEO)

Department of Computer Science and Engineering
UG (B.E - C.S.E)

Programme Outcome

After the successful completion of the U.G. programme in Computer Science and Engineering, Graduates will be able to:

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals,and an engineering specialization to the solution of complex engineering problems.

PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Programme Specific Outcomes (PSO's)

After the successful completion of the U.G. programme in Computer Science and Engineering, Graduates will be able to:

PSO1: Categorize the basic engineering knowledge to solve the problems in Computer Science and Engineering according to the environmental needs.

PSO2: Apply the modern tools to design and develop the software system ethically to the industrial needs.

Programme Educational Obejectives (PEO's)

PEO1: Graduate will be successful in their profession by taking part actively in the field of software and technology.

PEO2: Graduate will be proficient in analyzing and facing the challenge in computer science and engineering.

PEO3: Graduate will engage in lifelong learning activities by adapting to the advanced software technologies for continuous professional development.

Highlights of the Department

Accredited by NBA under Tier – I

Anna University recognized Research Centre

Permanent AICTE Affiliation

IIT Bombay Remote Centre

Innovative Design Thinking Curriculum developed by well experienced Academic and Industry Experts

Integrating modern teaching methodologies, including project-based learning, flipped classrooms, and interactive digital tools with Smart Class rooms having Digital interactive display board.

Well Experienced and Qualified Faculty members certified by reputed industries like Intel, IBM, NVidia, Wipro, Altair and renowned institutions such as NITTTR, IIT, IIIT, OpenHPI etc.

Internships and certification from Infosys Springboard and Wipro

Extensive training in coding through competitive KIT portal.

Our vibrant alumni network stands as a testament to the success and impact of our department comprising accomplished professionals across various industries worldwide

Lab facilities

Academic

Internet and Software Systems Lab

Open Source and Mobile Computing Lab

Graphics and Multimedia Lab

Data Structures Lab

Computer Centre

Labs with Centre of Excellence

Intel powered AI – High Performance Computing Lab

Advanced Computing Lab in collaboration with CDAC, Bangalore

AICTE – Juniper MistAI Networks Lab

DELL-EMC Centre of Excellence for Data Science and Big Data Analytics

NVidia DLI Teaching Kits for AI and Deep Learning

MoU signed

Yardstick Digital Solutions

Nandha Infotech Solutions

Redhat Academy

Oracle IT Academy

VMWare IT Academy

Microsoft IT Academy

Value Added Programs and Certification Courses

Coursera (Exclusive Login)

Altair (Rapid miner, IoT)

Java certification through (WIPRO)

NMEICT- FOSSEE

IBM Power Skills Academy

Google Cloud ready facilitator Program

Certifications:

Students should have these Certifications on their own:

1.First year students: NPTEL-Programming in C, Python, Java, Coursera courses, udemy courses, Infosys spring board- Python foundations, HTML,CSS foundation certifications.

2.Second year students: NPTEL-DSA, Computer architecture, Computer networks, Infosys spring board: Java foundations, DBMS

3.Third year students: NPTEL- Programming in Gen AI, Iot, Cloud computing, Cisco- Python essentials 1&2, Introduction to cybersecurity, Infosys spring board:React foundation or angular foundations.

Preferred to have atleast 3 or more certifications per year.

If user asks for final year students certificate then reply as: "If you did previous year certifications and followed placements training, you will be on internship now!".

Associated with various Professional Bodies

- CSI (Computer Society of India)
- ISTE (Indian Society for Technical Education)
- IEEE

Faculty members

Our Experienced Faculty Members

Our department is supported by a team of highly qualified, experienced, and dedicated faculty members committed to academic excellence, research, and student development. The faculty includes Professors, Associate Professors, and Assistant Professors with strong academic backgrounds and specialization in various domains.

Faculty Members List

1. **Dr. S. Vimal** – M.E., Ph.D. – **Professor & Dean**
2. **Dr. S. Raja Mohamed** – M.E., Ph.D. – **Associate Professor & HoD**
3. **Dr. S. Santhi** – M.E., Ph.D. – **Professor**
4. **Dr. K. Mahalakshmi** – M.Tech., Ph.D. – **Professor**

5. **Dr. K. Deeba** – M.Tech., Ph.D. – **Professor**
6. **Dr. S. Dhanabal** – M.E., Ph.D. – **Professor**
7. **Dr. C. Suresh** – M.E., Ph.D. – **Associate Professor**
8. **Dr. S. Pandiarajan** – M.Tech., Ph.D. – **Assistant Professor**
9. **Ms. M. Jayanthi** – M.E., (Ph.D.) – **Assistant Professor**
10. **Ms. S. Deepa** – M.E., (Ph.D.) – **Assistant Professor**
11. **Mr. V. M. Prabhakaran** – M.E. – **Assistant Professor**
12. **Ms. R. Renugadevi** – M.E., (Ph.D.) – **Assistant Professor**
13. **Dr. J. Senthil Kumar** – M.E., Ph.D. – **Assistant Professor**
14. **Ms. R. Sumathy** – M.E., (Ph.D.) – **Assistant Professor**
15. **Ms. R. Sasikala** – M.E. – **Assistant Professor**
16. **Ms. M. Revathy** – M.Tech., (Ph.D.) – **Assistant Professor**
17. **Ms. A. Yuvarani** – M.E. – **Assistant Professor**
18. **Ms. Gokilapriya S** – M.E. – **Assistant Professor**
19. **Ms. P. Malathi** – M.E. – **Assistant Professor**
20. **Ms. T. Amsaveni** – M.E. – **Assistant Professor**
21. **Mr. K. Vijayarajasekaran** – M.E. – **Assistant Professor**
22. **Ms. S. Varalakshmi** – M.E. – **Assistant Professor**
23. **Ms. M. Thabathi** – M.E. – **Assistant Professor**
24. **Mr. S. Selvin Rajeshkumar** – M.E. – **Assistant Professor**
